

## MouthWatch Plus+ HD Intraoral Camera

# Precision is a **Plus+**

Changing the intraoral camera game, again. A True 1080p HD intraoral camera at a fraction of the cost from other major manufacturers. Backed — like every one of our products — by unparalleled MouthWatch customer support.

### SEE WHAT A PLUS+ WILL ADD TO YOUR PRACTICE...

**CAPTURE TRUE  
1080P HD IMAGES**

**FAST, BLUR-FREE  
60 FPS VIDEO FEED**

**CLINICAL GRADE,  
HIGH-STRENGTH LENS**

## TRUE 1080P HD

With **2,073,600** pixels,  
displayed in over 1 billion shades.

Unlike other cameras that advertise “HD” and capture only at 720p resolution, the MouthWatch Plus+ provides True 1080p HD for stunningly precise display — even on large monitors. A 60 frame-per-second (FPS) scan-rate ensures blur-free video and detailed 2 megapixel images, even with some patient motion.

# High-Resolution Images Made **Easy**

## Dual Button Locations

Image capture and lighting controls on the top and bottom of the MouthWatch Plus+ HD Intraoral Camera enable more grasp options and easier use.

## 4 Levels of Adjustable LED Illumination

6 adjustable LEDs provide 4 levels of illumination, including off. Reduce need to dry teeth for glare-free images by adjusting lighting on camera, or to better match capture needs.

## Integrates Seamlessly with Your Existing Imaging Software, Guaranteed.

MouthWatch intraoral cameras stand apart for their quick integration and universal compatibility with imaging software. Need integration support? Our team is available to remote in and install our button capture software for you.

Guaranteed to work with your imaging software, including...

COMPLIMENTARY, LIFETIME CUSTOMER SUPPORT

FULL 60-DAY MONEY-BACK GUARANTEE

NEVER A CHARGE FOR DRIVERS OR INTEGRATION SUPPORT

EXTENDED 2 YEAR WARRANTY
